***Allowable Subject Matter***

1. Claims 9-12,13 are allowed.

2. The following is an examiner's statement of reasons for allowance:

None of the cited references in combination with other limitations of claim teaches or suggests an active matrix array device that has plurality of signal processing circuits integrated on said substrate, each signal processing circuit being connected to a respective bus line, wherein a first signal processing circuit associated with a first address conductor of a first group of address conductors and a second signal processing circuit associated with a last address conductor of a second group of address conductors are adjacent on said substrate, as disclosed in independent claim 9. The closest art (Chang et al. and Ohwada et al.) disclose related devices, either singularly or in combination fail to anticipate or suggest these limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
